PS-1	UNESCO Heritage Analyst	Analyze UNESCO World Heritage Sites by region, category, danger status and historical trends.	The dataset is large and difficult to interpret in raw spreadsheet form.	There is no interactive dashboard that summarizes insights effectively.	Analysis becomes slow, confusing and time-consuming.
PS-2	Government Official / Policy Maker	Identify endangered heritage sites and prioritize conservation efforts.	Information is scattered across multiple records and reports.	Comparing regions and heritage sites manually is inefficient.	Decision making becomes difficult and less effective.
